Subject: PTB Program Improvement Webinar Series: CT/GC Treatment in Family Planning and STD Clinics- August 12, 2008, 2:00 - 3:30 EST

Importance: High

Dear Colleagues,

Please forward this to appropriate staff in your area interested in performance measures or involved in the webinar topic.

The Program and Training Branch continues it's program improvement webinar series on Tuesday, August 12, 2008 from 2:00 - 3:30 p.m. EST. We will use performance measure data to generate discussion on how to maintain or improve the timely treatment of Chlamydia and gonorrhea in females in family planning and STD clinics. Attached below are 4 tables depicting average, ranked performance by disease and clinic type. Please review these tables, paying particular attention to your data, and join us on August 12th for what should be a rich discussion.

<<GC Treatment FPC 073008.doc>> <<CT Treatment FPC 073008.doc>> <<Treated GC in STD clinics072808.doc>> <<Treated CT in STD Clinics072808.doc>>

The following is participant information for the webinar. Please be mindful that we have a limited number of lines available for this call, so please convene as many staff as possible in a given area on one line:
